

Potenziale des Metaverse für Baden-Württemberg

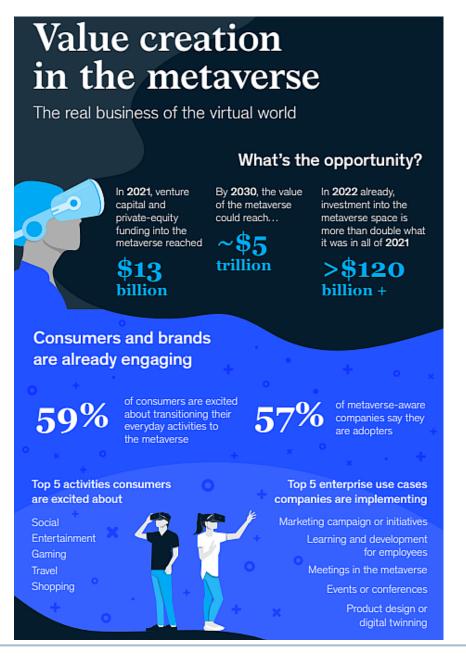

Metaverse

- very big promises, but also
- very controversial discussions
- job cuts at Meta
- disbandment of Disney's Metaverse division...

important: to distinguish between

- Consumer Metaverse
- Commercial Metaverse
- Industrial Metaverse

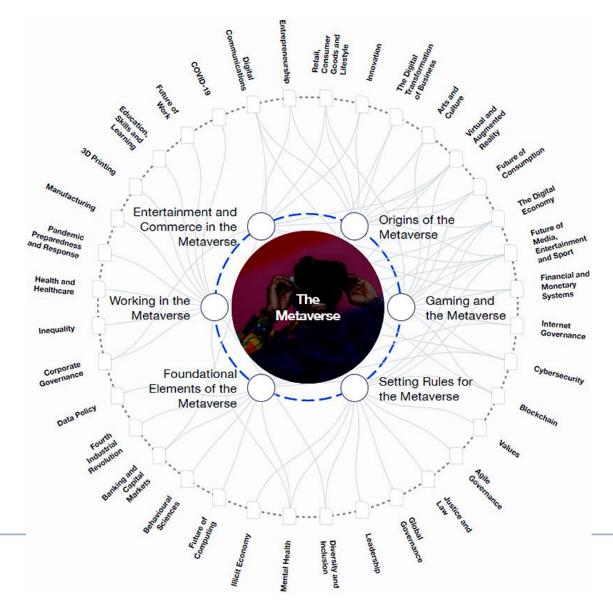

Metaverse Transformation Map of World Economic Forums by the World Economic Forum

The CyberLÄND project - overview

Project objectives:

- develop understanding of metaverse
- raise awareness and educate companies about the metaverse
- develop knowledge on how companies can use the Metaverse in a meaningful way
- identify potentials for the business location Baden-Württemberg
- lientify companies in Baden-Württemberg that offer or could offer components and services for the Metaverse
- bring together experts in the context

Intended project results:

- Study about Metaverse potentials for companies
- map of central Metaverse players in Baden-Württemberg
- scenario analysis "Economy, work, society in the Metaverse"
- expert community "Metaverse"
- competence center Metaverse; contact person, create orientation

Consortium:

- Fraunhofer Institute for Industrial Engineering (IAO)
- Fraunhofer Institute for Manufacturing Engineering and Automation (IPA)
- Virtual Dimension Center w.V. (VDC)

Participation opportunities for external parties:

- obtain project results / studies
- participation in the technical working group
- membership in VDC

Funded by:

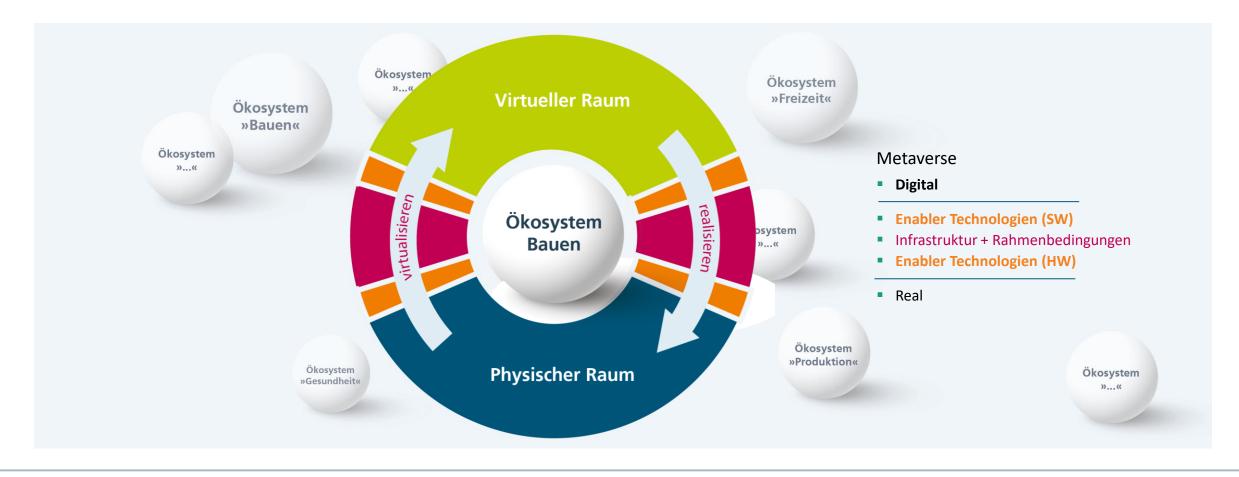

Ministry of Economy, Labor and Tourism Baden-Württemberg

Auf dem Weg zum Metaverse Konvergenz entscheidender Elemente

Digitalisierung und Metaverse Technologien und Geschäftsmodelle

Bereits eingesetzte Technologien

- Digital Twin (mit realer maschineller Anbindung)
- Virtuelle Kollaborationen
 - Displaytechnologien
 - Dezentralisierung
 - XR & AR
 - Sensorik
 - Echtzeit-Rendering
 - Netze
 - WebGL
 - **Avatarsysteme**
 - **Open Source**
 - KI-basierte Sprachmodelle

Geschäftsmodelle und Potenziale

Demokratisierung der Entwicklung

Immersives Erleben des Entwicklungsgegenstandes

Interaktive Simulation und iteratives Testen

Erzeugung synthetischer Daten

Virtuelles "On-the-Job" Training

Digitalisierung und Metaverse Kooperationen und Unterstützung

Wichtigste Kooperationsmotive

- Erschließung neuer Märkte
- Wissens- und Erfahrungsaustausch
- Aus- & Weiterbildung
- Steigerung der Innovationsfähigkeit
- Wettbewerbsvorteile & Markteintrittsstrategien
- Storytelling & Öffentlichkeitsarbeit
- Aufbau eines neuen Geschäftsmodells
- Zugang zu neuen Technologien
- Kostensenkung
- Ressourcenzugang

Informationsbedarfe

Künstliche Intelligenz Services zum Metaverse **eXtended Reality** Metaverse-Inhalte Netwerktechnologien IoT & Robotik Blockchain Infrastruktur Mapping & Localization **Edge Computing**

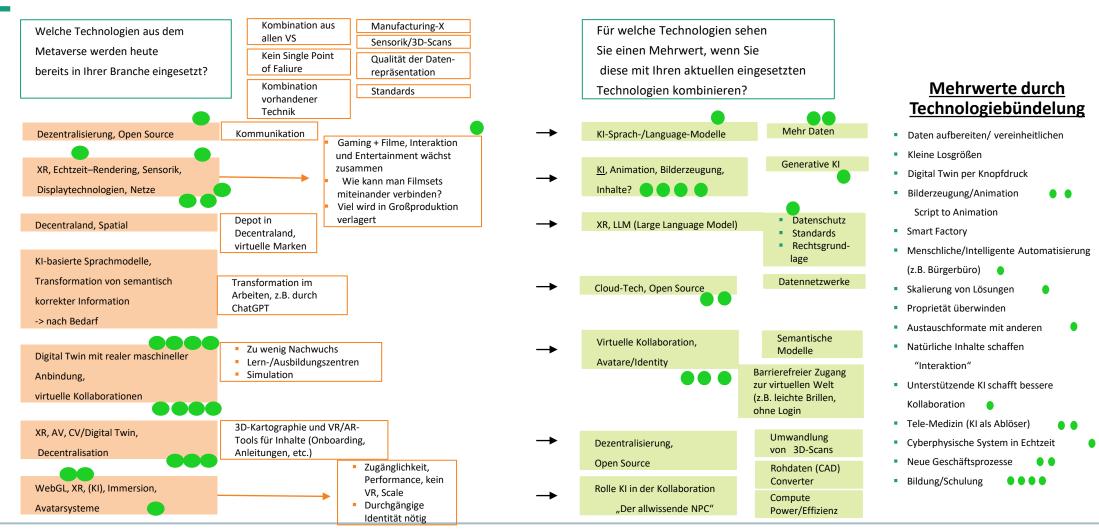

Ergebnisse des Workshops »Technologie«

Aus dem CyberLÄND-Expertenforum »CyberLänd« am 22.5.2023 in Stuttgart

Ergebnisse des Workshops »Geschäftsmodelle« Aus dem CyberLÄND-Expertenforum »CyberLänd«

- Welche Kundenprobleme können durch Technologien des Metaverse besser gelöst werden?
- Welche gänzlich neuen Wertversprechen (Produkte und Dienstleistungen) lassen sich im Metaverse realisieren?
- Welche ergänzenden Mehrwerte zu bestehenden Leistungen können angeboten werden?

Nutzen - und Wertekategorien (nicht komplett trennscharf)

Anbietersoftware & Hybride Produkte

Erlebnisse und Emotionen schaffen

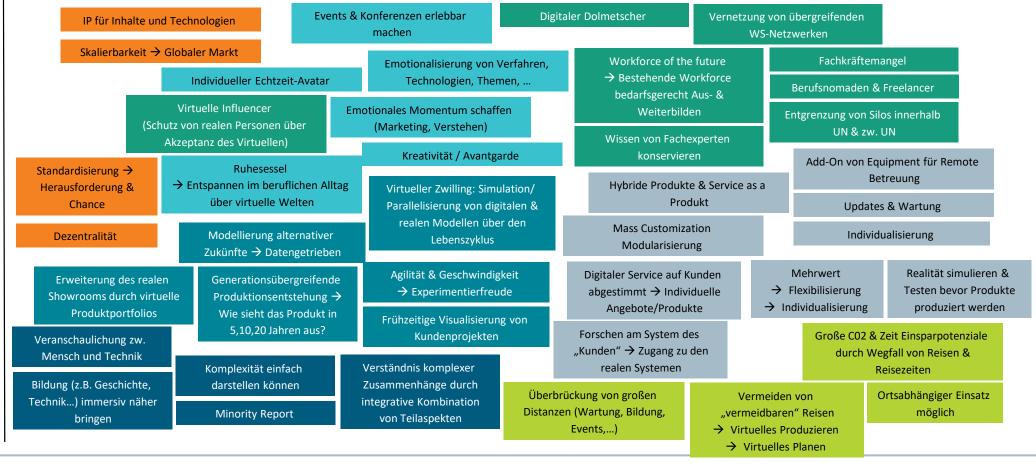

Unabhängigkeit (Ort, Zeit, Sprache)

Beteiligung und Vernetzung (gegen Fachkräftemangel)

Industrieanwendungen

Skalierbarkeit, Standartisierung & Dezentralisierung

Veranschaulichung & Verständnisvermittlung von Komplexität

XR eco system: positioning ourselves in future topics

But: We find ourselves only at the sideline of a fight for global XR ecosystems.

desktop

mobile hand helds

smart glasses

VR headsets

game

consoles

problem:

- Europe will probably not create a huge, global platform provider
- platform providers aim at vendor lock-in

- what options for action do we have?
- what can be our future role to create added value and employment?

Meta

Positioning ourselves in future topics: metaverse

seamless

Assuming the metaverse to be a combination of

- 1. collective & persistent 3D spaces ↑,
- 2. digital twin methods \longrightarrow , and

Who can deliver industrial metaverse solutions? The "usual metaverse suspects" like Meta, Sandbox, Decentralenand, etc. will probably not be the ones.

German companies doing projects with Nvidia Omniverse:

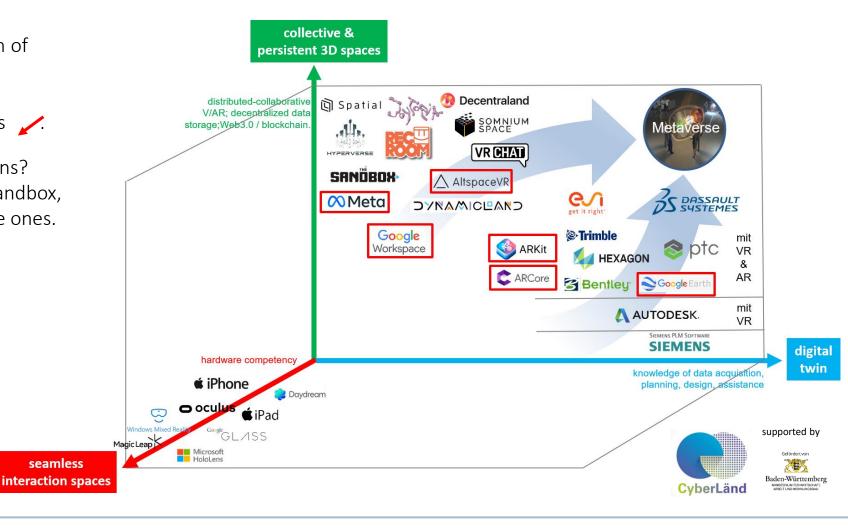

The 3 axes of the metaverse:

Metaverse future projection World Economic Forum

World Economic Forum 17. Feb. 2023

FIGURE 7

Projected horizons of metaverse growth and adoption

Economic models selected today must consider the varying stages of maturity across technology, policy and wider enablers that these choices may use, as these choices will act as the foundations for how experiences of product and service offerings will evolve over time.

Now Early adoption and traction

Near Ecosystem maturity

Next Mass adoption

Today-2 years~

Initial enablement and experiences

Early development and adoption of worlds and spaces powered by major investment in content production, new tools and features, foundational technologies, hardware, software and identity solutions.

2-5 years~

Mainstream products and technologies

Development of standards for enabling interoperability, mass adoption of immersive technologies, new business models based on content distribution, new financial products and services and the proliferation of 5G and edge computing.

5-10+ years

Proliferation of worlds, products and services

Maturity and adoption will set future scenarios, with economic models to be validated further in future reports supported by the identification of new value chains and future growth scenarios.
